Burglary.

PORTLAND, Me. 18. The store of Sarge & Pratt, at Fairfield, Somerset County, was broken into last night, and \$600 taken from the safe.

Legal.

PORTLAND, Me. 18. An injunction was granted in the U. S. Circuit Court today, to compel Nathan and John T. Wood of Portland to cease using the trade mark of "Alcock's India Rubber Porous Plasters." The Porous Plaster Co., of New York, have brought suit for a large amount.

Launch.

BATH, Aug. 18. Launched this afternoon by Adams & Hinchey, a beautifully modelled bark of 125 tons. She has been built by special survey, and rates A 1. The most distinctive feature is the hull, which is of a new and improved construction to make her in every respect first-class, and good as any vessel built in Maine. She is owned by the builders, Geo. F. Mason, Capt. Wm. S. Higgins and Edwin Reed, Esq., one of our most respectable merchants whose name she bears, and who will manage the business of the bark. Capt. Higgins commands her.

Obituary.

PROVIDENCE, R. I. Aug. 18. Rev. B. A. Chase of the Providence Methodist Episcopal Conference, died in Cumberland yesterday. He was a native of Maine and chaplain of the Fourth Me. Regiment during the war.

Forest Fires.

OTTAWA, Ont. Aug. 18. The destructive fire raging in the vicinity of Ottawa, is a repetition of the devastating fire of 1870. The most destructive scene is in the direction of Aylmer where the fire is three miles in length, and making rapid progress towards DuRoi. On the farms of Messrs. Flinn and Maligne, the fire is raging most fiercely. One of the Ottawa Engineers and Fire Brigade, were sent to fight the flames near St. Mills and the citizens are also hard at work fighting the elements. Business is suspended this afternoon and the city is enveloped in a cloud of smoke and ashes. Many are packing their valuables, preparatory to flight.

Murder.

OTTAWA, Ont. Aug. 18. A horrible murder was committed about two miles from here Sunday, by Chas. Moran who shot his brother's wife five times in the head, and then cut her throat. The cause of the murder is unknown. The murderer was arrested in his brother's barn this morning.

The Weather.

—The Cranberry crop at North Ellsworth promises exceedingly well. —The Hancock Congregational Conference will meet at South West Harbor, Sept. 1st, and 2d.

—The hay crop throughout this County will average about three quarters of the crop of last year.

—The Emerald Band will make their excursion to Bar Harbor August 25th going outside the Island.

—Porgies are now very plenty in Jericho Bay and the seiners are doing a lively and profitable business.

—Rev. W. O. Holman of Charlestown, Mass., formerly Pastor of the Baptist Church in this City, is visiting friends in Ellsworth.

—Rev. W. A. Reese, the present Baptist minister, leaves this week on his vacation of three weeks for Lowell, Mass., his old home.

—On some of the farms in this section, this year the haymakers have had to wear tight boots to wade through the water with.

—Mr. R. F. Joy, Photographer, is stopping at Somerville for a few days, where he will be happy to see his friends in this vicinity.

—The Congregational Society here have begun the same hymn book for forty years, are talking of a change, and will probably make one.

—Mr. Isaac M. Grant is laying the keel of a new barquentine of 620 tons, to be commanded by A. J. Higgins. She will be owned principally by Ellsworth parties.

—Mr. P. W. Perry, Supervisor of Internal Revenue for the District of North and South Carolina is at home in Ellsworth for a short vacation.

—The recent wet weather has caused potatoes in some localities to rust, and the farmers say that cool weather is necessary to prevent the disease from becoming general.

—Our devoted fishermen experience ill-luck in visiting the bay for mackerel. It is true they never return without mackerel, but it is noticed they seldom visit to go a second time.

—Ellsworth now has two regularly organized Brass Bands. The Cornet Band, and the Emerald Band. Their march practicing fills the air with strains melodious and otherwise.

—The rains of last week raised the water in the river higher than an ordinary Spring freshet. The mills were obliged to shut down on account of high water. They are now going again all right.

—Michael Hurley is making quite a block out of the old Pump Factory, on the Western side of the bridge. He will have there a man unloading a car of fish in the basement, general stores on the first floor, and the second floor will be made into dwellings.

—And now they call the street leading east from near the residence of Judge George S. Peters, Birch Avenue, and it is becoming quite populous. Mr. Frederick Aiken, and Mr. Seth Hall are building new residences on this Avenue.

—Hunnehan Co. No. 1, will parade in uniform this evening, escorted by the Ellsworth Cornet Band. They will exercise their machine on the Shore Road. Full attendance of the Company is desired at their House at 12 o'clock.

—In the printed report of the County Convention were several omissions, owing to the hurry in setting it up. A. C. Hubbard of Bucksport, Wm. A. Bragdon of Franklin and Samuel Wasson of Narry, were the Committee on Resolutions.

—On Saturday forenoon last, Eben Carter, a youth about 18 years of age, caught his thumb in a circular saw at Hopkins and McDonald's Mill and so badly lacerated it as to render amputation necessary. The operation was performed by Dr. Drake.

Pickings and Stealings.

—When she gets to tithing better beachers," is what they say in the small boats.

—Beginning of a judge's charge in Iowa: "Gentlemen of the Jury, you must now quit eating peanuts and attend to this case."

—A Toledo man reckons that the recent increase in the price of woolen yarn has added three per cent. to the valuation of his family.

—An Indianapolis paper says, "Of course we know that organ-grinders are a nuisance and should be abolished, and yet it is strange how much interest solid business men and others take in the antics of the accompanying monkey."

—The apothecaries of Lewiston are ordering large quantities of paregoric, a new syrup, in view of the coming competitive bazaar to be held during the State Fair, so says the Journal.

—A Yankee lawyer, who was pleading the cause of a litigious look, took him up his arms and held him to the jury, sufficed in tears. This had great effect on the jury, and the lawyer asked the jury: "What makes you cry?" He's picking me, said the boy.

—A young man walked into a Norwich book store and inquired for Homer's Odyssey. The clerk, after looking through the shelves and failing to find the book, asked him to search in a reflective manner. "Well, we haven't any of Homer's latest works at present."

—"Cute Cousins doesn't dress like her brothers of the tribe," says the Chief Justice, by way of commencing an item. That's undoubtedly true; she dresses by putting on her clothes over her head, while they don't; and what's more, they can't.

—The Ellsworth Herald wants to know: "Is there anything in the world more trying to the soul of a man than to find that the talent displayed by our own young ladies, which really seems to be of a high order, where all did so well it would seem invidious to particularize. The audience were much pleased with Miss Wheeler's charming songs, and little Ella Campbell's cunning singing of Mother Goose melodies."

—We have been asked by an Ellsworth gentleman (married) to print this paragraph from an exchange:

"We don't see why men whose wives are in the country should wear their best clothes every day in the week. And we don't understand why they purchase so many bracelets, and bottles of cologne and dozens of handkerchiefs. As we are in search of information, we'd like some of these bereaved husbands to explain. And, also, we want to know if in letters they write their wives how the bracelets cost."

—We don't know the man he is after. TEACHERS' MEETING.—The teachers of Ellsworth are requested to meet at the High School Room Saturday afternoon, August 22d, at 3 o'clock. It is important that all should attend.

JOHN B. REIDMAN, Ch. of the S. S. Committee.

Blackell.—Joseph A. Gott of East Boston, is soon to erect a suitable summer boarding house at Blackell Falls. He is confident that the natural beauties of the place cannot fail to attract and please.

West End.—Mr. E. M. Hamor has been making addition to his store, by widening it some twelve feet, and putting on a new roof.

Trenton.—Mr. K. K. Thompson of Trenton is certainly the owner of a remarkable hen. She has recently laid three eggs, the united weight of which is three quarters of a pound. The largest measures seven by eight and one-fourth inches, and weighs five ounces.

Hancock.—Five young ladies and gentlemen left this place Monday, to attend the Maine Central Institute at Pittsfield.

—Last week a huge hen-hawk tried to carry off one of Mrs. Martha Berry's chickens, but Mrs. Berry would not let him alone, and the hawk lost not only his chicken but his head.

Backpackers.—The concert given in Lyceum Hall, Bucksport, Wednesday evening, by Miss Wiley, Mrs. Gardner, Mr. Haynes and Mr. Barrows, was largely attended, and very successful. The programme was of considerable length, but the audience insisted on numerous encores, and the loud vocalism of the ladies and gentlemen who took part was thoroughly appreciated.—Whig.

The Democratic Committee of the Fifth District, after repeated urging and flattery, has called the convention to nominate a candidate for Congress at Ellsworth, on the week from next Tuesday. Ellsworth is a pleasant place after people get there, but it is one of the most inaccessible in the district. The time between the nomination and the call and the assembling of the Convention is totally insufficient for the choice of delegates by the voters of this blundering may not forebode the action of the convention.—(Belfast Rep. Journal.)

What is in the wind? —The decision of Judge Clifford, Monday, affirming the decision of the State Courts confirming the validity of the foreclosure of the mortgage to the second mortgageholders at Ellsworth, and the Maine Central Railroad Company, has undoubtedly settled the question of the ownership of that road in favor of the present holders.—Press.

—The bluetongue is said to be very large. Estimates are made of the value of the crop in the western part of this County and they reach as high as \$10,000,000, and we say so, but we would be willing to reduce it a few dollars. A great part of the crop in the western part of this County is owned and owned by Wm. Freeman, Esq. of Cherryfield, and as a result of his lawsuit with the Messrs. Underwood last year, he receives a royalty from those who put their up for market, of one-third of a cent per can.—(Maine Republican.)

—The New Portland correspondent of the Lewiston Journal says: "A responsible party has been formed at Ellsworth to operate in mining for gold. The 'diggers' are twenty-five miles from that place, somewhere north of the wilderness, probably on the waters of the Spencer; the precise locality is not yet made known. There has been a company of six or eight men at work there for the last five weeks; they hauled their supplies to the end of the logging road on the bounding land, and have carried on the work for some time for dams and sluices, and all necessary tools for mining. There are several experienced miners in the company, and operations thus far indicate that it may be a paying business. Gold was first discovered in the bed of the stream, while exploring for timber. It is reported that the company has secured the exclusive right to mine on a large tract of land."

A gentleman one evening was seated near a lovely woman when the company around him were proposing, and turning to each other, and, turning to his companion, he said: "Why is a lady like a mirror?" "She shows you what you are," replied the lady. "Very good," said she. "Now answer me, why is a man unlike a mirror?" "I can not tell you," "Because the mirror is polished, and the man is not."

The Springfield Republican is startled at the announcement that several clerks are to be employed in the State Department. How are the secrets of State to be kept under such circumstances?
